

Plural dialogue for Brazil's development.

Committed to promoting plural debate and the country's sustainable development.

01 | WHO WE ARE

Instituto Diálogos (ID) is a nonpartisan, not-for-profit organization that fosters and promotes pluralistic debate and the dissemination of knowledge on major national and international affairs.

Our series of debates and studies bring together guests from the public, private, academic, and media sectors — leaders united by a shared commitment to Brazil's development.

We connect diverse stakeholders and perspectives to turn dialogue into clear pathways for Brazil's future.

02 | OUR PURPOSE

MISSION

Contribute to building a sustainable national development project committed to a fairer and more democratic country.

VISION

Bring together the private, public, and academic sectors to foster a pluralistic exchange of ideas, recognizing the power of dialogue to identify new possibilities and address emerging challenges.

03 | STRATEGIC THEMES

We debate and analyze the key issues shaping Brazil's future and its role on the global stage:

- **Geopolitics and International Relations** — Brazil's sovereign and strategic positioning in the world.
- **National Development** — Public and private policies for sustainable growth.
- **Goeconomics** — Global economic trends and their impact on the Brazilian economy.
- **Strategic Mineral Resources** — Sovereignty, sustainable exploration, and energy transition.
- **Agribusiness and Food Security** — Productivity, sustainable agricultural production, and global supply.
- **Technology and Innovation** — Digital transformation, artificial intelligence, and competitiveness.
- **Sustainability and Energy Transition** — Clean energy matrix, preservation, and climate commitment.

04 | HOW WE WORK

We promote a series of debates and studies, creating environments conducive to Brazil's development and the prosperity of its people through four key pillars of action:

DEBATES

Cycles of debates, seminars, panels, and strategic meetings.

STUDIES

Production, analysis, and dissemination of qualified knowledge.

CONNECTIONS

Bringing together and creating synergy between the public, private, and academic sectors.

DIALOGUE

Building open, plural spaces for the convergence of ideas.

05 | THE INSTITUTE IN ACTION

LATEST SEMINAR · OCTOBER 8, 2026

Critical and Strategic Minerals: From the New Law to Industrial Transformation

Government officials, business leaders and experts filled the auditorium of the Ion Building in Brasília to discuss how to turn Brazil's critical minerals into industry, following the enactment of Law No. 15,506/2026. It was the first in a series of seminars on the topic.

PREVIOUS EVENT

The New Global Goeconomics and Brazil's Role on the World Stage

A strategic event bringing together experts and policymakers to discuss transformations in geopolitics and international trade, exploring opportunities and challenges for the Brazilian economy.
